## ENVIRONMENT AND ENERGY USAGE POLICY

At CMS College of Science & Commerce, we are deeply committed to promoting environmental conservation, sustainability, and embracing eco-friendly practices across all our activities. This policy outlines our guiding principles and objectives in fostering a green mindset within the college community.

### **Objectives:**

1. Cultivate environmental awareness and a sense of responsibility towards nature among students, faculty, staff, and all stakeholders.
2. Integrate environmental studies and sustainability concepts into the curriculum. and promote research focused on developing innovative solutions.
3. Encourage and facilitate the transition towards eco-friendly alternatives and safe disposal methods for laboratory wastes.
4. Conserve natural resources, including water, energy, and raw materials, through efficient management and the use of renewable energy sources.

### **Policies:**

1. Curriculum Integration: Environmental studies and sustainability concepts will be integrated into the curriculum.
2. Green Campus Initiatives: The college will maintain and enhance the green cover within the campuses through regular tree plantation drives, landscaping initiatives, and the preservation of existing flora. Biodiversity will be fostered, and a conducive environment for learning will be created. The use of renewable energy sources like solar power will be explored and implemented.
3. Sustainable Practices: Eco-friendly alternatives, such as green synthesis, micro-scale laboratory techniques, simulators, and safe disposal methods for laboratory wastes, will be encouraged and facilitated. Sustainable transportation practices will

be promoted, including restricting the entry of vehicles beyond designated parking areas and encouraging the use of bicycles and pedestrian-friendly pathways within the campuses.

4. Awareness and Collaboration: The college will collaborate with other people and the local community to raise awareness, conduct campaigns, and implement initiatives that address environmental issues and contribute to sustainable development goals.
5. Auditing and Monitoring: Periodic Green Audits and Energy Audits will be conducted to assess the environmental impact of college operations, identify areas for improvement, and implement corrective measures as needed.
6. Policy Review and Updates: The Environment and Energy Usage Policy will be reviewed and updated when it is necessary to ensure its relevance and effectiveness in addressing emerging environmental challenges and incorporating new technologies, best practices, and regulatory requirements.

This policy reflects our commitment to creating a sustainable and eco-friendly campus environment, instilling a deep respect for nature in our students, and contributing to the global efforts towards environmental conservation and sustainable development. We encourage all stakeholders to actively participate and support the implementation of this policy, fostering a greener and more sustainable future for our college and the broader community.
